Artiklarna 1-3 och 15 grundas på MMCUP registerdata. Artiklarna 5 och 7 handlar om Spina Bifida-registret vid CDC i USA, som vi samrått med under uppbyggnaden av MMCUP och där Ann Alriksson-Schmidt har deltagit i båda registren. Övriga artiklar redogör för utveckling och prövning av instrument och variabler under utformning av uppföljning vid MMC och för inmatningsformulär i MMCUP .

Abstracts 1-5 grundas på data från registret, nummer 6 är en översiktsartikel som ligger till grund för kognitionsuppföljningen i MMCUP uppföljningsprogram och de variabler som valts till kvalitetsregistret. I studierna rapporterade i abstracts 7-11 har olika variabler och instrument prövats och utgör underlag för inmatningsformulär i MMCUP. Population och andra uppgifter i MMCUP-registret har också används för planering av studierna.
